## Baroda Straight Bourbon

### Blend

70% Corn  
15% Malted Barley  
15% Malted Rye

### Distilling

*Distilled in our copper pot still and aged for 2 years in new, charred American White Oak barrels.*

### Statistics

*Alcohol: 40% (80 proof)*

### Distiller's Notes

*Our Baroda Straight Bourbon Whiskey is mashed, fermented and distilled on location in Baroda, Michigan. Visually it presents a brilliant, translucent russet-gold hue. The nose features clean and mild aromas of honey, cereal grain, buttered cornbread, milled oak, and spice. On the palate, the corn provides a substantial malty-sweet body, while malted barley lends structure and viscosity. On the finish, the malted rye adds a playful touch of zest. When tasting look for biscuity flavors, notes of oak, cedar and cherry wood, vanilla, and white pepper. Enjoy a medium-length finish that is warming and pleasant.*

### What Makes Bourbon, Bourbon?

*Bourbon isn't only made in Kentucky! As a matter of fact, Bourbon may be produced anywhere in the USA as long as you follow a few simple guidelines:*

- *The mash must be made up of at least 51% corn*
- *It must be distilled to no more than 80% alcohol or 160 proof*
- *It must be stored at no more than 125 proof in new, charred oak barrels*
- *Must be bottled at no less than 40% alcohol or 80 proof*

### Mixology

*Use in classic cocktails like a Whiskey Sour or neat on the rocks.*
